

Engineers/Architects/Building Inspectors Are invited to a training seminar on....

“POST-HURRICANE SAFETY EVALUATION OF BUILDINGS”

By the

Applied Technology Council (ATC): ATC-45 Field Manual

Instructor: Mr. Edwin Huston, Vice President, Smith & Huston, Inc
Seattle, Washington (Structural Engineer)

Sponsor: Hawaii State Civil Defense (SCD)

Goal: Training of, as well as refresher training on safety inspection procedures for post wind storm and flood safety evaluation of buildings.

Why: Life safety. When a hurricane strikes a community, there is immediate need for building safety inspections. People need to be kept from entering or using unsafe buildings.

Who: Building inspectors, architects, engineers, volunteer design professionals, and other emergency response personnel who are called after windstorms and floods to determine whether damaged or potentially damaged buildings are safe for occupancy or if entry should be restricted or prohibited.

When: Wednesday, April 26, 2006

Where: Neal Blasdell Center, Pikake Room (Left of Galeria entrance)

Time: 8:00 am to 12:30 pm (Registration – Beginning at 7:30 am)

Cost: No registration fee

RSVP: Danny Tengan, State Civil Defense dtengan@scd.hawaii.gov

Registration: By E-mail: Name, organization/agency, job title, & phone number.

NOTE: Please disseminate to other interested parties.
